

Model : Rotary filling machine**Application**

This machine can filled powder product into different shape and size rigid container like bottles, cans, Jars etc. Featured with good price ,stable performance ,high reliability and easy to operate.

**Technical Specification**

Power supply	3P AC208-415V 50/60Hz
Weight	400kg
Hopper Volume	25L
Total power	1.32Kw
Overall Dimensions	1800×1050×1610mm
Filling weight	5 – 100g
Filling accuracy	≤ 100g, ≤±2% ; 100 – 500g , ≤±1%
Filling speed	20 - 120 bottles/min
Container size	φ26-60mm, H 40-200mm
