

**Model : AC-7H HIGH SPEED
CHECK WEIGHER**

Application

It can check any production like bags,
jars, pouches and any product.

Technical Specification

Speed -----	60-150bag/min(adjustable)
Power -----	100 - 240VAC 250W 50/60Hz single phase
Model -----	AC-7H
Weighing Range -----	5 ~ 999.9g
Nw/Gw(kg) -----	96/328
Machine Size(lxwxh) -----	1268x625x1411
Communication port for option -----	RS485/RS232
Conveying belt size(mm) -----	W:220mm(L :Infeed belt ,349 L: Middle weighing belt,449 L:Output belt,649)
Eliminate optional device -----	Two-way swing arm device/T-push rejector
Preliminary program -----	Maximum 100 sets
Conveyor belt speed -----	5-150meter/m(1meter/m increasing)
Minimum scale -----	0.1g
Weighing accuracy (for reference) -	±0.5~1g
