

Flat Object Labelling Machine

LA - 2

Applications :

It is used for the upper surface of labels or adhesive film, such as books, folders, boxes, cartons, top of any product etc.

Technical Detail :

- | | |
|--|-------------------------------------|
| • Applicable Length of Label: | 6 ~ 250mm |
| • Applicable Label width (backing paper width) | 20 ~ 150mm |
| • Applicable Dimensions (LxWxH) | 40 ~ 400mm, 40 ~ 200mm, 0.2 ~ 150mm |
| • Applicable standard roll diameter (mm) | φ350 mm below are available |
| • Labeling accuracy | ± 1mm |
| • The standard speed (m / min) Stepping | 19m/min, Servo: 25m/min |
| • Labeling speed (pcs / min) Stepping | 40~150pcs/min, Servo: 50~200pcs/min |
| • Conveyor speed (m / min) Stepping | 5 ~ 19m/min, Servo: 5 ~ 25m/min |
| • Weight (kg) | 180kg |
| • Frequency (HZ) | 50/60HZ |
| • Voltage (V) | 110/220V |
