SAM-CKN

Cheetos & Kurkure
& Nik Nak line

Cheetos is brand of cheese-flavored, puffed corn meal snacks, cheetos are manufactured by blending corn & water. the mixture is heated under pressure & then extruded through a die. The texture of the snack is formed as a result of contact with hot air causing steam in the mixture to expand & creating its characteristic texture. After oven-drying or frying the product is then tumbled with the desired flavor components.
